

High Security Seal · Data Sheet

Carrier Cable Seal 350

Strong, fixed length barrier seal

The CCS 350 is a strong and durable high security seal with good tamper evidence that has designed for high security requirements.

It's simple yet durable design makes it very user-friendly and suitable for usage in various applications.

Typical applications for the CCS 350 include trucks, tankers, and air cargo containers, shipping containers, rail cars, calibrators and valves.

Features

- 1 The Carrier Cable Seal 350 is a strong and durable seal designed especially for high security applications.
- 2 The body is molded with high-impact ABS.
- 3 One end of the cable is permanently secured via crimping technology which cannot be removed without cutting the cable. The metal locking mechanism embedded inside the metal bush provides effective locking strength and prevents easy tampering.
- 4 The high strength steel bush and pin provides added security. The non-preformed galvanized steel wire used will also fray upon cutting, showing clear evidence of tampering.
- 5 The CCS 350 is etched with irreversible and permanent laser marking for name, logo, sequential number and barcodes.

Technical Specifications

PRODUCT

Product Code	Material	Locking Space	Strap Dimensions	Tensile Strength	Marking Area	Max Marking Digits
CCS350	Body: ABS Cable: Galvanized steel wire	310 mm (std) <i>*customized length available</i>	Ø 3.5 mm	1300 kg	26 x 12 mm	8

INNER CARTON

Product Code	Quantity	Dimensions mm	Weight kg/carton	Volume m ³ /carton
CCS350	150 pcs	300 x 270 x 160 mm	7.24 kg	0.01296

OUTER CARTON

Carton Quantity	Dimensions mm	Weight kg/carton	Volume m ³ /carton
2,700 pcs	930 x 860 x 360 mm	130.30 kg	0.28793
